A. STAY AT OASYHOTEL

1. Before arrival

Before each new arrival of guests, the spaces of the Oasis are sanitized through cleaning and disinfection of all environments, by specifically trained staff. All Dynamo staff involved in the performance of services and activities will be subjected to the test serological in the days preceding the stay and specially trained on the procedures to follow. During the stay there will also always be a person in charge, specially trained to comply with all safety regulations and procedures. In the 12h prior to arrival, guests are asked to independently take care of the measurement body temperature, which should not exceed 37.5 ° and to ascertain the absence of symptoms of flu. To avoid gatherings and minimize the time spent inside the reception, in the days prior to arrival, guests will be required to check-in online in advance of the following documents:

- all information necessary for registration;
- a copy of the identity document;
- the completed form of consent to the processing of personal data;

In this way the check-in procedure will be anticipated and guests can go individually at the concierge only to check the body temperature and the personal data recognition.

2. Arrival at the hotel

Upon arrival at Dynamo, to allow access to the areas of the structure, the body temperature of the individual clients will be measured, to verify that it does not exceed 37.5 °. It should be noted that such measurement will be taken every day while staying at Dynamo for the safety of all guests and staff involved. The names will be constantly noted in a register of the persons to whom the survey will be carried out (only the names will be noted, without specify the respective temperatures). After measuring the body temperature, the staff will proceed with the recognition of the personal data of each guest. At that point, the assigned room key will be delivered e the guest will be accompanied to her room. To ensure greater security, each guest will be assigned a single room with private facilities (except in the case of cohabitants, who will be able to stay in the same room, unless a different prior request is made by the party of the guest himself).

3. General rules within the Oasis

Inside the common areas, where it will not be possible to have access to the toilets, it will be placed available to guests and staff alcoholic gel with an alcohol concentration between 60-85% for hygiene hands. During the stay in the Oasis it is obligatory to maintain an interpersonal distance in the measure of 100 cm. This distance must always be respected even while waiting for services or access and outflow to individual areas. Despite the large internal and external spaces that characterize the structure, the respect of distance it will be facilitated by the visible presence of information signs and space delimiters. The use of masks by the internal staff will always be guaranteed and the same is requested from guests.

4. Cleaning of the rooms

The rooms will always be sanitized before the arrival of individual guests.

5. Internal transport

To travel within the Oasis, our vehicles with drivers will be available to guests. While waiting for the vehicle, the guest is asked to respect the safety distances of at least 100 cm from other people, to follow the driver's instructions when getting on and off the vehicle, and always be protected by the mask and sit where indicated.

6. Restaurant room

Access to the restaurant will be regulated by the Oasi Dynamo staff. To facilitate respect for interpersonal distance, information signs will be posted and space delimiters and the access and exit routes will be well marked. Once the guest has reached the room, they can take a seat at the table. The places will be marked with special signs. Table service will be provided.

7. Meeting rooms

Within the areas intended for meetings, conferences and events, as in other common areas, it is always mandatory to respect the interpersonal distance of at least 100 cm, as during access and the outflow, as well as masks must always be worn. To facilitate compliance with the distance, information signs and space delimiters will be posted. If possible, a fixed numbered seat will be assigned to each participant, to be used for the whole duration of the event. To allow the presentation without a template, the speaker will keep a distance of at least 200 cm from any other person. In order to allow you to intervene without wearing the mask, the speakers seated at the table must maintain a minimum distance of 200 cm between them. The mixed use of mobile microphones, mics, keyboards, touch screens, remote controls, etc. will be avoided. Where this is not possible, it will be necessary to clean with disinfectant between uses.

8. Experiential activities

The performance of activities within the Oasis will be guaranteed in compliance with safety standards and spacing. The interpersonal distance of 100 cm and the use of PPE from part of the guests and activity staff.

B. MANAGEMENT OF SYMPTOMATIC CASES

1. Symptomatic case

In the event that a person present inside the Oasis presents fever and / or symptoms of infection respiratory (dry cough, fever, sore throat, breathing difficulties) must communicate this promptly to the Dynamo staff present. In any case, in order to minimize the risk of contagion, the guest - with the support of the staff Dynamo - will have to follow the following measures:

- wear a surgical mask;
- minimize contact with other people;
- stay in your own room or in an isolated environment with the door closed but with ventilation natural guaranteed. Any forms of assistance, connected to urgent needs, must be carried out by people:
 - in good health, using the appropriate personal protective equipment; only in this when using face protection devices, clothes covers and FFP2 mask;
 - who must wash their hands thoroughly with hydroalcoholic solution before and after contact with the person or the living environment; pay particular attention to surfaces that may have come into contact with fluids (respiratory secretions, urine, feces) of the patient;
 - who will have the paper handkerchiefs removed in a waterproof bag directly by the patient used; the bag will be disposed of in one with the infected materials produced during the activities health care of the rescue personnel.

2. Close contacts

Healthcare professionals may request information regarding the close contacts that the person has symptoms from Covid-19 he had inside the Oasis. For example:

- any person who has provided direct assistance to the infected person without the use of PPE recommended or through the use of unsuitable PPE;
 - any person who has had unprotected direct contact with the secretions of the infected person (for example, he touched used paper handkerchiefs with his bare hands);
 - any people who have had direct physical contact with the infected person (for example, a handshake);
 - any people who have had direct contact (face to face) or have found each other in a closed environment (for example, a vehicle or a closed room) with the infected person for at least 15 minutes, at a distance of less than two meters;
 - any people who have stayed in the same room or unit in which it has stayed the infected person.
- Oasi Dynamo may ask any close contacts to leave the business as a precaution, according to the indications of the Health Authority.

3. At the end of the stay

In the 15 days following the end of the stay, the guest is asked to report to Oasi Dynamo the possible assessment of positivity to Covid-19.
